

# Versatile Race Volunteer

**You want to help with races but not sure how. This page is for you.**

In the organization of a race, the organizer crew is highly dependent on reliable volunteers. In case of a big event like hosting Nationals, a lot of positions are available to help offering a great event. It is good practice to contribute to smaller events/races prior to these majors ones to understand what's involved. We all need to start somewhere. ❄️
